Rishabh Chopda

Computer Science & Engineering Student | AI/ML | Data Science | Full-Stack Development
Ahmedabad, Gujarat | +91 9157522016 | rishabhchopda7@gmail.com
github.com/rishabhchopda | linkedin.com/in/rishabh-chopda

Professional Summary

Computer Science & Engineering student with hands-on experience in AI/ML, Data Science, NLP, and full-stack development using Python, Flask, FastAPI, Java, SQL, and PostgreSQL. Built applications involving resume intelligence, semantic job matching, LLM-powered research, NLP classification, data analysis, REST APIs, and database systems.

Technical Skills

Languages: Python, Java, C++, C, SQL, JavaScript, HTML, CSS
AI/ML & Data Science: Scikit-learn, Pandas, NumPy, TF-IDF, NLP, EDA, Machine Learning, Sentence Transformers, Semantic Similarity, LLM APIs
Frameworks: Flask, FastAPI, Django, REST APIs
Databases & Tools: PostgreSQL, Supabase, MySQL, SQLite, Git, GitHub, Jupyter Notebook, Google Colab, Android Studio

Projects

CareerCompass – Resume-Intelligent Job Matching Platform | ***Flask, PostgreSQL, Supabase***

- Built a full-stack placement platform with Student, Recruiter, and Admin modules for resumes, jobs, applications, and recruitment workflows.
- Developed Resume Intelligence for resume analysis, scoring, skill extraction, ATS evaluation, and hybrid job matching using semantic similarity.

Research Assistant – AI-Powered Research Platform | ***FastAPI, Llama 3.3, Groq, NLP***

- Built an AI research platform for paper search, semantic search, PDF analysis, summarization, literature review, plagiarism analysis, and AI-text detection.
- Implemented semantic search using all-MiniLM-L6-v2 embeddings and integrated Llama 3.3 70B through Groq API, arXiv API, and PyMuPDF.

AI Text Detector – NLP Classification System | ***Python, Scikit-learn, TF-IDF***

- Developed an NLP system for human-written versus AI-generated text classification using preprocessing, EDA, and TF-IDF feature extraction.
- Trained and compared Logistic Regression and Naive Bayes models and implemented real-time prediction with classification confidence.

Internships

SparktoIdeas **15 Days**
Internship *Ahmedabad, Gujarat*

- Completed a 1-month Data Science internship at Sparks To Ideas, working on data preprocessing, exploratory data analysis, feature engineering, data visualization, and machine learning workflows. Applied Python libraries such as Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn to analyze datasets, identify patterns, build predictive models, and evaluate model performance.

Advanced AI Tools Internship **2024**
15-Day Internship

- Completed a 15-day college-led internship on "Introduction and Evolution of Futuristic Technologies with Applications," gaining exposure to emerging technologies, their evolution, real-world applications, and their impact across modern industries.

Education

Indus University **2023 – 2027**
Bachelor of Technology in Computer Science & Engineering *Ahmedabad, Gujarat*

Certifications

AWS Academy Graduate – Cloud Foundations 2026
AWS Academy Graduate – Machine Learning Foundations 2026
AWS Academy Graduate – Machine Learning for Natural Language Processing 2026
Quantitative Research Job Simulation – JPMorgan Chase & Co. / Forage 2026
Data Analytics Job Simulation – Deloitte / Forage 2026
